

**'Esperance & Beyond'** - a collection of works inspired by my trip around Australia with my family in 2008.

### 'Katherine Gorge'

*Fused & slumped glass bowl  
`400mm x 400mm*

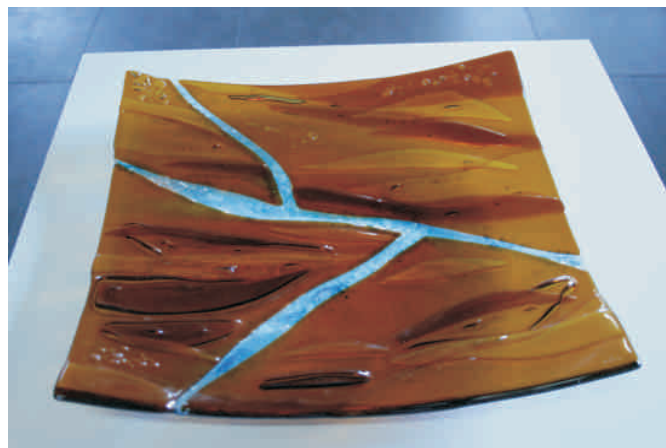

We (The Family) took a 4 hour boat cruise down Katherine Gorge. It was the contrast in the colours and the rock formations that really made it so visually spectacular.

### 'Desert River Flows'

In 2008 I was fortunate enough to be given a hot air balloon ride in Alice Springs by my gorgeous husband and boys. During our short visit to The Kimberly we all went for a helicopter ride over the Bungle Bungles. These two experiences gave me a very different perspective of the land. The other contributing influence to this bowl was the trip across the Tanami Desert and the Strezlecki Track.

### Reeded Bowl

'Water Reed Series'

In this bowl I wanted to represent the reeds of Mataranka, Ewan Ponds and the countless water holes that we saw throughout 2008.

The bowl can be used as a functional table piece for bread, fruit (the ventilation works a treat) etc or hang it on the wall.

Swimming through the reeds in the crystal clear freezing water of Ewan Ponds in SA and relaxing in the hot springs at Mataranka, NT.

### Water Reed Lamp

'Water Reed Series'

I remember designing this lamp lying in the back of the camper looking out my window at the large pandana plant outside.

Other visions/experiences that influenced the final outcome were quite a contrast... swimming through the reeds in the crystal clear freezing water of Ewan Ponds in SA and relaxing in the hot springs at Mataranka, NT.
